What Our Clients Say

We do things differently. Our clients say it's a great thing.

"From beginning to end, it was an absolute pleasure doing business with GreenTek Solutions! Quick and comprehensive response, friendly interaction, and a fast turn-around on the purchase of our used equipment."

- Award Solutions

"Greentek Solutions always responds quickly and sources equipment well. They're my main refurbished IT equipment supplier and I always go to them first...Responsive and professional!" - Sam C

"Small businesses like this are great examples of what can be accomplished when an entrepreneur pulls together a great team and delivers on a specific vision while still putting their customers first." - Eric N

Your data matters. Here's how we keep it safe.

GreenTek Solutions exceeds best data protection practices with frequent staff training, plus employs:

- Data Sanitization software that exceeds all DOD 5220.22M requirements, compliant with NIST 800-88 REV 1
- State-of-the-art hard-drive shredding
- A secure facility featuring rigorous access control, 40+ surveillance cameras, and mandatory metal detectors for entry and exit
- Detailed reporting and chain of custody transparency
- Impenetrable cybersecurity systems and two-factor authentication

At every step, we record the chain of custody and, at the end, offer a data destruction report to verify your data has been effectively and completely destroyed.

Our planet matters. Here's how we keep it healthy.

E-waste from old servers, laptops, data centers, and more pose a real threat to the environment—if not properly disposed of or repurposed. And for organizations that don't properly dispose of e-waste, there are stiff fines, legal ramifications, and reputation loss to contend with.

GreenTek Solutions makes it easy, safe, and affordable to keep the earth healthy by:

- Recycling used IT assets and their components
- Refurbishing devices to extend their life spans
- Preventing e-waste from reaching conventional landfills
- Reducing the need for mining and transport of new raw materials
- Helping organizations measure their IT assets' environmental impact

Doing things the right way is vital. Here's how we do it.

When your clients trust you with their data, e-waste, and time, you have to do the right thing. Always.

GreenTek Solutions remains committed to quality, environmental health and safety, and certified processes, undergoing third-party audits and exceeding certification standards, including:

R2v3 Certified

ISO 45001:
2018 Certified
Occupational Health
& Safety Management

ISO 14001:
2015 Certified
Environmental
Management System

ISO 9001:
2015 Certified
Quality Management
Systems

HIPAA Compliant

The International
Association of IT
Asset Managers

NMSDC
(National Minority
Supplier Development
Council)

AscdiNatd
The Association of
Service and Computer
Dealers and the North
American Association
of Telecom Dealers

**U.S. Environmental
Protection Agency's
Green Power
Partnership**

Having served some of the largest, most risk-averse companies out there, we're experienced at handling complex, sensitive ITAD projects that demand certified, careful operations.

Eliminate risk and liability during the ITAD process. Gain peace of mind.

Exceeding R2v3 and ISO certifications aren't enough. We take risk reduction to the next level with extensive insurance policies, training and more.

Data Breach

Insurance: Your data's security is a top priority, so we adhere to all data handling best practices. In the improbable case of a data breach, this insurance policy protects your company.

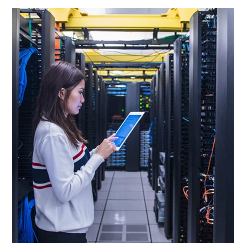

Pollution Insurance:

You don't have to worry about improper disposal or liability due to irresponsible disposal of e-waste. We're committed to being environmentally friendly—and you're covered through this policy.

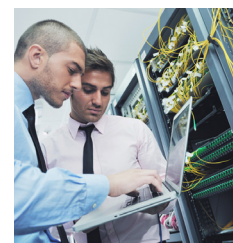

Errors and Omissions Policy:

For extra coverage, this comprehensive policy protects our clients from any omissions or errors when providing a service, protecting them from losing money.

Workers' Insurance & Training: All of our team members are insured and trained on safety, proper data handling and IT best practices.

Commercial General Liability:

In the rare event of physical damage to your company's premises during our services, this policy ensures quick repair while your company is not impacted.

Accelerating Change as an Apple Impact Accelerator Participant

In 2021, GreenTek Solutions was selected to join the Apple Impact Accelerator, a program for minority-owned businesses that are creating environmental solutions focused on climate change, resource conservation and smarter chemistry, just one of 15 businesses selected for Apple's first Impact Accelerator cohort.

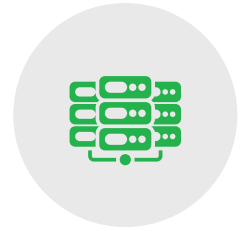

Your IT assets affect your ESG goals. We can help.

**Reduce GHG Emissions
& Prevent E-Waste
Pollution**

**Positively Impact
Consumers,
Communities &
Employees**

**Gain Scope 3
Transparency &
Actionable Data**

Especially when your IT assets are no longer useful to you, there's a significant opportunity to lower your GHG output, gain data transparency, reduce risk and liability, and even get a handle on Scope 3 emissions.

And, importantly, direct e-waste to proper disposal and raw materials to recycling!

That's why GreenTek partners with companies committed to achieving ESG goals, leveraging ITAD services that capture the opportunities your IT assets offer, doing right for the earth, community, and companies.
